

WELCOME TO ATLANTIC CONTAINER LINE

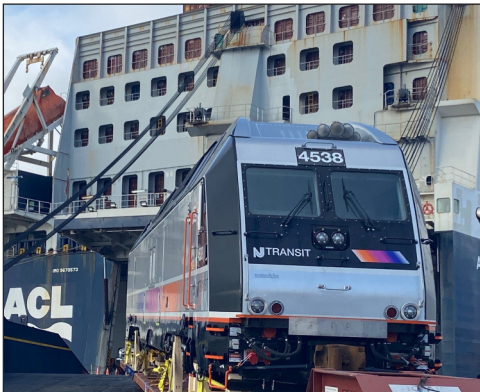

A TRANSATLANTIC CARRIER

Since 1967, Atlantic Container Line has been a specialized transatlantic carrier of containers, project cargo, RORO, high and heavy cargo, breakbulk cargo, heavy equipment and vehicles with the world's largest combination RORO/ Containerships (CONRO).

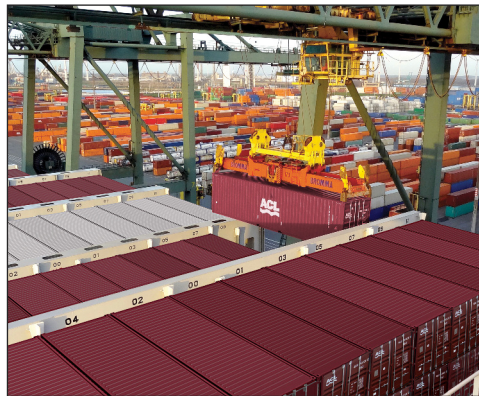

ACL provides door-to-door cargo pick-up and delivery for both containers and RORO, high and heavy and breakbulk cargo. It is the only transatlantic carrier able to offer this service for both types of cargo.

ACL offers weekly transatlantic sailings and is the North American Agent for the Grimaldi Group for services between North America and West Africa and between North America and the Mediterranean. It also offers oversized cargo service from North America to the Middle East, Far East and Oceania.

ACL is a Grimaldi Group Company.

MOST UNIQUE VESSELS

ACL's fleet, the *Atlantic Star*, *Atlantic Sail*, *Atlantic Sea*, *Atlantic Sky* and *Atlantic Sun* are the largest vessels of their kind in the world. Container capacity is 3,800 TEUs, 1,000 cars and 4,000 lane meters of RORO, high and heavy and breakbulk cargo. The 420 ton quarter ramp enables simultaneous loading and discharging with a maximum single piece weight of 260 tonnes. The main deck main deck clearance is 7.45 m. Your cargo is not subject to an icy, saltwater soaking since it is transported in a safe secure, enclosed garage.

ACL has never lost a container in over 40 years. While other carriers use lashings to secure containers, ACL has a proven alternative for transporting containers safely. Our unique steel cell rack system located above and below deck keeps containers safe and secure from the beginning of the voyage to the end. No lashings to break. No containers lost.

CERTIFICATIONS

ACL follows the same Corporate Social and Environmental Management policies and responsibilities as its Parent Company, the Grimaldi Group and is committed to these standards. Our fleet of combination CONRO vessels adhere to the latest marine environment safety measures at sea. For more information on the Grimaldi Group's Sustainability, Quality and Environment please visit:

www.grimaldi.napoli.it/en/sustainability_report.htm
www.grimaldi.napoli.it/en/certifications.html

ACL was among the very first to receive International Safety Management safety and environmental certification even when compliance was not yet required by all ocean carriers. ACL and its entire fleet are certified in and are members in the following:

AWARD WINNING CUSTOMER SERVICE

ACL has its own network of customer service centers in North America and Europe. Our transport experts evaluate complex logistical challenges and find optimal solutions. ATLAS, our in-house state-of-the-art computer system and software program was designed to give ACL instant access to every aspect of a customer's shipment. MY ACL is a quick and easy way to track every move of a container's shipment. Register and everything you want to know about your container is there in real time! Get invoices, bills of lading or make VGM submissions.

ACL's small organization enables quick decision-making that is nearly impossible in larger corporations. We are proud to be the recipient of yearly customer awards, which only validates ACL's superior customer service.
